Indhira's practice focuses on preparing and prosecuting U.S. and foreign patent and trademark applications. She has drafted and prosecuted patent applications in the areas of software, firmware, networks, telecommunications, mobility, global position system (GPS) technologies, computer hardware, e-commerce, mass spectrometry, packaging, and traditional electrical and mechanical arts. Indhira's practice includes all phases of developing and protecting patent, trademark, and copyright portfolios. She has handled patent appeals and trademark oppositions before the U.S. Patent & Trademark Office, provided counsel on patent, trademark, and copyright litigation matters, written patentability and registrability opinions, and drafted IP licensing and acquisition agreements.
